## EXPERIENCE

### Seawise Capital, Delhi — Software Engineer

JUNE 2021 - Present

Updated both admin & webapp products with new features, refactor of existing ones and bug fixes overall. Added invoice creation, buyer credit score, undertaking templates, payment reminders, cron, and more.

### Fame Technologies, Remote — Front End Web Developer

JUNE 2020 - SEPT 2020

Worked on 4 projects that include creating new responsive websites, connecting Front End with Back End, and updating the previous codebase. Core technologies used were HTML, CSS, JS, ReactJs.

## EDUCATION

### H.M.R. Institute of Technology and Management, Hamidpur, Delhi

2017 - 2021

Completed my Bachelor's degree in Computer Science with CGPA of 8.5

### Himalaya Public Sr. Sec. School, Rohini, New Delhi

2013 - 2017

Scored 89% in my 12th Standard and 10.0 CGPA in my 10th.

## PROJECTS

### [Activities Pro](#)

An adventure explorer website built with Node.js, ejs, MongoDB at its core. People can explore different activities around them, make comments, see the location using integrated maps and more.

### [Ecommerce website](#)

Built with JS at its core. All functionalities including DB, authentication, view template are built with JS from scratch, no external library used.

### [Todo PWA](#)

Just another Todo app and so much more. It is installable, great UI, todos persists new browser sessions, dark-light theme available.
